

UNIVERSITY OF ŁÓDŹ
CRACOW UNIVERSITY OF TECHNOLOGY
WARSAW UNIVERSITY OF TECHNOLOGY IN PŁOCK
POLISH TRIBOLOGY SOCIETY

TRIBOCHEMISTRY

Proceedings of the 2nd Symposium
15 - 17 September 1997, Janowice, Poland

CONTENTS

Introduction.....	5
K. Nakayama, Mechanical Engineering Laboratory, Japan, „Triboelectromagnetic Phenomena in Sliding Contacts”.....	7
N. Ohmae, Y. Baba, M. Umeno, M. Tagawa, Osaka University, Japan, „Structure and Tribology of Adsorbed Water on Micromachine Surfaces Fabricated by the LIGA Process”.....	13
D. Ozimina, Technical University of Kielce, Poland, „Electrochemical Model of Boundary Film Formation”.....	19
E. S. Yamaguchi, R. L. Primer, Chevron Research and Technology Company, Richmond, California, USA, „Dynamic Light Scattering Studies of the Neutral and Basic Zinc Dithiophosphates Salts”.....	25
E. S. Yamaguchi, P. R. Ryason, T. P. Hansen, Chevron Research and Technology Company, Richmond, California, USA, „Electric Contact Resistance Studies of Zinc Dithiophosphate-Containing Oils in Sliding Contacts”.....	35
M. Chmura, Cracov University of Technology, Poland, „Thermal Decomposition of Thiooxomolybdenum Dialkyldithiophosphate”.....	45
A. Kulczycki, Central Petroleum Laboratory, Poland, „The Influence of Gear Oils Formulation on the Mechanism of Gear Lubrication”.....	49
O. P. Parenago, Yu. A. Lozovoi, G. N. Kuz'mina, T. A. Zaimovskaya, Topchiev Institute of Petrochemical Synthesis, Russian Academy of Science, Russia, „Some Tribochemical Peculiarities of Molybdenum Dithiocarbamate Complexes”.....	53
H. Janecki, M. Janecka, Technical University of Radom, Poland, „Investigations of Ferrocene Sulphur Derivatives in Tribological Systems”.....	59
W. Tuszyński, M. Szczerek, M. Grądkowski, Institut for Terotechnology, Poland, „Investigations of EP Properties of Gear Oils by New Analytical Techniques”.....	67
K. Kardasz, C. Kajdas, R. Kempinski, E. Kędzińska, M. Konopka, L. Wilkanowicz, Warsaw Technical University, Poland, „Selected Esters as Lubricity Additives for Low Sulphur Diesel Fuels”.....	73
J. Lara, P. V. Kotvis, W. T. Tysoe, University of Wisconsin - Milwaukee, USA, „The Surface Chemistry of Chlorinated Hydrocarbon Extreme Pressure Lubricant Additives”.....	79
I. Minami, Kochi University of Technology, Japan, „Anti-wear Mechanism of Phosphorus Containing Additives”.....	87
D. M. Bieliński, L. Ślusarski, Łódź Technical University, Poland, „Structure of Surface Layer and Tribological Properties of Polymer Materials”.....	91

H. Janecki, Radom Technical University, Poland, „Friction Surface Investigation by Means of Isotopes Labelled Ferrocene Derivatives”	97
S. Płaza, G. Celichowski, L. Margielewski, D. Ozimina, L. Starczewski, Łódź University, Poland, „Tribiochemical Reactions of Dibenzyl Disulphide and Organic Halogen Binary Additive Systems in Boundary Lubrication”	101
L. Margielewski, University of Łódź, Poland, Zinc Dialkyldithiophosphate Adsorption on Silicon Carbide”	111
M. J. Furey, C. Kajdas, R. Kempński, Virginia State University, USA, Warsaw Technical University, Poland, „Tribopolymerization: Surface Temperatures and the Antiwear Action of Condensation-Type Monomers”	115
C. Kajdas, M. J. Furey, R. Kempński, Virginia State University, USA, Warsaw Technical University, Poland, „Tribopolymerization: II. NIRAM Applications to the Antiwear Action of Addition-Type Monomers”	127
R. Kempński, M. J. Furey, C. Kajdas, B. S. Tripathy, Virginia State University, USA, Warsaw Technical University, Poland, Federal-Mogul Corporation, Michigan, USA, ” Tribopolymerization: II. Computer Modeling of Monomer/Surface Interactions”	141
J. Burcan, H. P. Janecki, Technical University of Lodz, Radom Technical University, Poland, „Magnetically Active Lubricants”	149
A. Drużdżel, International Tobacco Machinery Poland, Poland, „Influence of Manufacturing Parameters on Wear Resistance of Al-Based Composites Produced via Powder Metallurgy”	155
T. Shiota, M. Tagawa, M. Umeno, N. Ohmae, Osaka University, Japan, „Field Stimulated Exoelectron Emission -A Survey of Recent Result-”	165
G. Celichowski, S. Płaza, University of Łódź, Poland, „Adsorption of Zinc Dialkyldithiocarbamate on Iron and Iron Oxide”	169
N. K. Myshkin, Yu. E. Kirpichenko, Metal-Polymer Research Institute of Belarussian Academy of Science, Gomel, Belarus, „New Temperature Method to Evaluate the Effectiveness of Boundary Lubricant Films”	173
Author's Index	175
